INFORMATION DISCLOSURE STATEMENT

Sir:

In accordance with 37 C.F.R. § 1.56, the following information is being brought to the attention of the Examiner for consideration in connection with the examination of the above-identified patent application.

Applicant was previously affiliated with a company known as NationalHousewares.com (the "Company"). The Company maintained a website that permitted web users to view potential products (houseware products) that were offered for sale by the Company. All products available for purchase at the Company's website were posted by the Company. Web users were permitted to make offers for product(s) posted at the Company's website. In response to a web user's offer, the Company's website was programmed to extend a counter-offer pursuant to parameters set by the Company. However, the Company's counter-offers did not vary based on price/quantity breaks with counter offer ranges and wait periods. In addition, as noted above, the Company's website was designed to permit third parties to post products for sale. Thus, the Company's website could not be utilized by third parties to define customized criteria for each third party item posted for sale at the website.
